

Fiber Festival of Western New York
July 14-15, 2007

Fiber Education Proposal

Please submit by May 7th for consideration

Name: _____

Address: _____

Home Phone: _____ Cell: _____

Email Address: _____

Proposed Fiber Education: _____

Description:

At this time, being our first festival event, we recommend that all public educational exhibits be limited to beginner level. We will be setting up scheduled "mini workshop" times if anyone chooses to actually conduct small classes. We encourage beginner projects that participants can complete at home. We will provide all educational artists with alpaca fiber and product to use during workshops. Please remember that this is our first event and we need to keep workshops on a more simple level as we pave our way through this first year.

Fiber Festival of Western New York
July 14-15, 2007

We will not hold pre registration for educational classes this year, we will limit numbers as they sign up. We will prepare a schedule closer to fiber festival with "workshop" class times when we know how many educators will be attending.

Please submit your proposal and the committee will select educators based on skill and variety for festival. You will be notified by the May 14, 2007 so that you may begin preparing.

We will work closely with you to help with kit preparation if needed, being that we will be providing materials this year for workshops. With the success of this year, we anticipate a more true workshop where participants will register and pay fee for workshop participation.

Please provide us with basic information regarding "workshop".

Maximum # students _____

Time needed: _____

We hope to offer different times throughout 2 days when your class will be available.

Remember, this year we are providing alpaca fiber for use during workshops, feel free to combine with other fibers as well just as long as alpaca is used in combination.

Workshop times will be between 10:00am -4:00pm on both Saturday and Sunday.

Every effort will be made to be accommodating and helpful as we want a successful event to showcase your fiber art and talents. We will be relying on your ideas and suggestions also to help things run smoothly. Here's to a beginning and hopefully an annual fiber art event!
